Dear Proponents

Ref: 31-262-75B-01B Prospect Telecommunications Tower

This Addendum #3 contains (1) page.

The following addendum supersedes information contained in the RFP to the extent referenced. This addendum forms part of the RFP documents and will be subject to all of the conditions set out in the contract conditions.

1. Notification of Acceptable Concrete Aggregate

Please be advised that SAL have sourced aggregate which is suitable for this project. A trial mix, which includes Sika Fibermesh and Penetron Admix, has been conducted and shown good results. This mix design may be considered ‘pre-approved’ for the project. Proponents may contact Brian Hollis on 525-1992 or [brian@sal.bm](mailto:brian@sal.bm) for further information.

Use of this mix is not mandatory, and proponents are welcome to pursue other mixes/suppliers.

2. Correction to the Extension of Time

An extension of time was granted in Addendum #1, however there was an error in the new timeline, specifically the “Anticipated Execution of Agreement”. Please see the corrected timeline below:
